

Hoebridge

Flexible Membership

A twelve month membership with all the benefits of a club membership, costing just £275* with the flexibility to top up to gain more rounds if needed.

Flexible Membership is for you if:

- You want all the benefits of club membership, including a handicap and access to competitions.
- You play regularly but not regularly enough to warrant a full 5 or 7 day membership.
- You want to own the flexibility of being able to top up your membership if needed.
- You don't want any restrictions of when you can play.
- You want the best advanced tee time booking rights.

The Flexible Membership points:

£275 gets you 550 points. This membership allows you to use your points when you choose. You can top up 200 points for £100 at any time during your membership, meaning you can play more golf if you use all of your points and still end up paying less than a full membership.

Upgrading:

If you find you are playing often enough to warrant a full membership then we will upgrade you at any time with no joining fee.
